INTRO- DUCTION

RED SHIBA is a collection of Dogs Non Fungible Tokens (NFTS). They are extremely special to our community, and eternally written on the Ethereum Blockchain. In the world of Red Shiba you can easily build your own unique and creative NFT Dog collections and only you can own these collections. Besides, the most outstanding feature of Red Shiba is buying and selling transactions on the NFT Marketplace, where each individual's interesting collections will be exchanged back and forth, promising to create a very vibrant market. Each NFT Dog will be equipped with different characteristics that will make each dog very unique and unique. For dog lovers, there will be many opportunities for them to collect dogs of different natures. We have a great love for our community, Red Shiba will help bring exclusivity and make historic turning points in the crypto space, so hurry up and join us!

TRUST

Trust is the most important thing in the cryptocurrency market. This means complete transparency not only in terms of community and development, but also in terms of insecure efforts. Kaiken Shiba has passed the audit of the third financial department and has burned and blocked most of the LP tokens. There is no carpet here, only the powerful Red Shiba.

TRANSPARENCY

Red Shiba is one of the fastest growing and most popular communities in the encryption field. We believe that we can only be strong if we are together.

Community is everything, Red Shiba strives to involve everyone from all over the world. We have several Telegram channels dedicated to the international community

COMMUNITY

Red Shiba is decentralized and supported by its fan community. We encourage open communication and believe that trust, transparency and community are the three pillars of longevity.

LONGEVITY

Red Shiba is ready for long-distance travel.
Decentralized communities are nurturing and embracing long-term ecosystems and grassroots development to drive real use cases and higher returns beyond any temporary trends
